

RSL Speakers Expands to Australia

RSL Speakers - A trusted name in high-quality, factory-direct home audio solutions since 1970. Bringing Award-Winning Audio Solutions Closer to Home

MELBOURNE, AUSTRALIA, October 29, 2024 /EINPresswire.com/ -- For over 50 years, RSL has proudly provided high-quality audio equipment at budget-friendly prices. As a factory-direct manufacturer, RSL eliminates the middleman, offering industry-leading audio solutions without the hefty price tag.

While many customers of RSL have long enjoyed advantages such as free shipping, expert audio advice, and comprehensive technical

support—including a 30-day in-home trial—Australian customers had to contend with significant air freight costs, taxes, and duties. Today, RSL is excited to announce the opening of a direct distribution warehouse in Melbourne, VIC, allowing Australian customers to access nearly all the same benefits enjoyed by RSL's American customers.

“

This expansion is part of strategic plans to grow our direct business model to better serve our international community, delivering the same exceptional quality, value, and support we're known for.”
