Mindatorium, Inc. announced today that following last months' successful "Grand Reveal" to industry insiders, the company has now released its revolutionary new multimedia streaming platform to 5.3 billion people speaking 13 languages in 141 countries. The Mindatorium platform is now truly global. Except where

prohibited by local laws, viewers can access the platform from virtually anywhere in the world where these 13 languages are spoken, and all participants reach the same platform, regardless of their location. And because the platform was built from the ground up using AI-generated technology, the company is also able track global sales and usage in real time.

Mr Morales explained, "Breaking the language barriers allows our company to make its material inclusive to diverse cultures worldwide and inspire and empower individuals on their personal journeys, many of whom

have never before had access to transformational programming. This approach fosters a sense of belonging among our users while igniting positive growth and change and maximizing the impact of our messaging."

The Mindatorium platform is also unique in that it is laser-focused on Conscious Media. Mr. Morales added, "Our company is obviously not in competition with Netflix, Hulu, Disney Plus or any of the huge entertainment streaming platforms. First and foremost, we are a multimedia entertainment platform where inspirational, motivational, transformational, and sensational

sensory experiences reside. However, our platform also extends beyond cinema to include a curated selection of documentaries and personal development shows, uplifting music, informative courses and a thriving community dedicated to growth and transformation." In all, the Mindatorium platforms consists of seven distinct sectors - Feature Films, Featurettes and Shorts, Visual Music, Broadcast Media (TV series, documentaries), The Tribe Community, Mentorship and Coaching Media, and "Impact on Earth" (social initiatives). All seven sectors are carefully curated for both content and production value, and all are included ad-free in the annual \$99 membership fee.

Mindatorium's mission is to utilize its transformational multimedia platform to develop a worldwide community linking talented storytellers, creative filmmakers and empowering communicators with audiences that are vested in personal development and the building of caring, sharing communities. It is a "values based" online platform where content is enjoyed, ideas flow, and a growing robust community is continually nurtured. The company's goal is to raise audience consciousness in areas of self-reliance, truth-telling and constructive relationship-building by creating and delivering entertaining, inspirational and transformational content.
