The 3D printing services market has seen significant growth in recent years, expanding from \$6.11 billion in 2023 to a projected \$7.5 billion in 2024, with a compound annual growth rate (CAGR) of 22.7%. This historic growth can be credited to factors such as rapid prototyping, cost-effectiveness, advancements in the medical field, design flexibility, and its increasing use in education and research.

What Is the Projected Market Size of the Global 3D Printing Services Market and Its Growth Rate?

The 3D printing services market is anticipated to

experience rapid growth in the coming years, projected to reach \$14.42 billion by 2028, with a compound annual growth rate (CAGR) of 17.8%. This expected growth can be attributed to advancements such as digital twinning and prototyping, the integration of augmented and virtual reality, metal and composite printing, expansion in the aerospace and automotive sectors, and the rise of on-demand production services.

What are the Key Drivers Fueling Growth in the 3D Printing Services Market?

The growing automotive industry is expected to drive the future expansion of the 3D printing services market. This industry encompasses companies and organizations involved in designing,

developing, manufacturing, marketing, selling, repairing, and modifying motor vehicles. 3D printing services facilitate rapid prototyping and the creation of custom automotive parts, cutting down on both development time and costs. These services also enable on-demand production and greater supply chain flexibility, helping automotive manufacturers optimize operations and reduce inventory costs.

Who Are the Key Players Driving Growth in the 3D Printing Services Market?

Key players in the market include 3D Systems Corporation, Stratasys Ltd., Materialise NV, ExOne Company, Arcam AB, Proto Labs Inc., HP Inc., SLM Solutions Group AG, ARC Group Worldwide Inc., Carbon Inc., Concept Laser GmbH, Cookson Precious Metals Ltd., EnvisionTEC GmbH, GE Additive, Groupe Gorgé SA, Höganäs AB, Markforged Inc., Mcor Technologies Ltd., Optomec Inc., ReaLizer GmbH, Renishaw plc, Organovo Holdings Inc., Nano Dimension Ltd., EOS GmbH Electro Optical Systems, General Electric Company, Voxeljet AG, Desktop Metal Inc., Ultimaker BV, Formlabs Inc., Prodways Group SA, XYZprinting Inc., Shapeways Inc., Sculpteo SAS

What Are The Emerging Trends Shaping The Growth Of The 3D Printing Services Market?

Leading companies in the 3D printing services market are concentrating on creating innovative products, such as high-performance FFF 3D printers, to strengthen their competitive position. One example is Magneto X, which incorporates Peoply's unique MagXY magnetic levitation linear motor system for the X and Y axes, delivering exceptional repeatability of 3 microns.

What Are the Segments of the Global 3D Printing Services Market?

- 1) By Service Offering: Tooling, Parts Production, Software Services, System Maintenance, Expert Service
- 2) By Application: Prototyping, Tooling, Functional Parts Manufacturing
- 3) By End user: Consumer Products, Automotive, Healthcare, Aerospace And Defense

Geographic Overview: Asia-Pacific at the Helm of the 3D Printing Services Market

Asia-Pacific was the largest region in the 3D printing services market in 2023. North America was the second largest region in the 3D printing services markets report. The regions covered in the 3d printing services market report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa

How Is The 3D Printing Services Market Defined?

3D printing services involve a process of creating three-dimensional objects by constructing them layer by layer from a digital design. This additive manufacturing technique builds a 3D object by gradually adding layers of material.

The [3D Printing Services Global Market Report 2024](#) from The Business Research Company

includes the following key information:

- Market size data for both historical and future periods
- Analysis of both macro and microeconomic factors that have impacted the market over the past five years
- Regional market analysis covering Asia-Pacific, China, Western Europe, Eastern Europe, North America, the USA, South America, and the Middle East and Africa
- Country-specific market analysis for Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, the UK, and the USA.

Overview of the Global 3D Printing Services Market Report: Trends, Opportunities, Strategies, and More

The 3D Printing Services Global Market Report 2024 from The Business Research Company is an extensive resource that delivers insights into 3d printing services market size, 3d printing services market drivers and trends, 3d printing services competitors' revenues, and 3d printing services market growth across geographies. This report provides valuable in-depth insights into potential opportunities and strategies. Companies can utilize the information presented to target segments with the greatest growth potential.

What Services Does The Business Research Company Offer?

The Business Research Company has published more than 15,000 reports spanning 27 industries and over 60 regions. Our research is supported by 1.5 million datasets, thorough secondary research, and unique insights gained from interviews with industry experts. We offer ongoing and customized research services, featuring a variety of specialized packages designed to meet your specific needs, such as Market Entry Research, Competitor Tracking, Supplier & Distributor Packages, and many others.

Our flagship product, the Global Market Model, serves as a leading market intelligence platform that provides comprehensive and updated forecasts to facilitate informed decision-making.
