The Business Research Company

The [gynecology medical lasers market](#) has experienced significant growth in recent years. It is projected to increase from \$0.31 billion in 2023 to \$0.45 billion in 2024, reflecting a compound annual growth rate (CAGR) of 44.7%. This growth during the historical period is linked to the rising prevalence of gynecological cancers, an increase in cosmetic gynecology procedures, higher disposable incomes, and a growing emphasis on preventive healthcare.

“

It will grow to \$1.72 billion in 2028 at a compound annual growth rate (CAGR) of 39.5%.”
