The [medical billing outsourcing market](#) has expanded significantly in recent years, driven by a rising demand for cost containment and an increasing need for data analytics. It is projected to increase from \$15.12 billion in 2023 to \$16.91 billion in 2024, reflecting a compound annual growth rate (CAGR) of 11.8%. This growth during the historical period can be linked to the growing complexity of medical billing, the transition to electronic health records (EHRs), a rise in patient volume, and an emphasis on patient care.
