

Drone Defense System Market Update 2024 : Projected to Exhibit USD 16.76 Billion Revenue by 2030, Claims AMR

The global drone defense system market was valued at \$2.13 billion in 2020, and is projected to reach \$16.76 billion by 2030, registering a CAGR of 26.6%.

WILMINGTON, DE, UNITED STATES, October 29, 2024 /EINPresswire.com/ -- According to the report published by Allied Market Research, the global [drone defense system market](#) generated \$2.13 billion in 2020, and is projected to garner \$16.76 billion by 2030, manifesting a CAGR of 26.6% from 2021 to 2030. The report provides a detailed analysis of changing market dynamics, key segments, major investment pockets, competitive landscape, value chain, and regional scenario.

“

Drone Defense System Market - By end-user, the military segment is expected to register significant growth during the forecast period.

”

Allied Market Research

Increase in drone related incidents across the globe and emergence of various startups offering drone defense systems fuel the global [drone defense system](#) market. However, issues associated with the drone defense related technologies and inefficiencies of counter drone technologies restrain the growth. Nevertheless, advancements in technology in tackling drone swarms and surge in defense expenditure create new opportunities in the next few years.

The global market is segmented on the basis of end user, technology, application, and region. By end user, the military segment accounted for the highest share, holding around two-fifths of the total market share in 2020, and is projected to maintain its leadership status throughout the forecast period. In addition, the same segment is expected to witness the fastest CAGR of 29.5% from 2021 to 2030.

By technology, the countermeasure systems segment accounted for the largest market share in 2020, contributing to nearly two-thirds of the global drone defense system market, and is projected to maintain its dominant share in terms of revenue during the forecast period.

Furthermore, the segment is estimated to witness the fastest CAGR of 28.6% from 2021 to 2030.

By region, Asia-Pacific generated the highest market share in 2020, holding nearly one-third of the total market share, and is projected to maintain its lead position by 2030. Along with this, the region is also projected to witness the highest CAGR of 30.7% during the forecast period. The report also analyzes regions including North America, Europe, and LAMEA.

Leading players of the global drone defense system market analyzed in the research include Leonardo S.P.A.

Mistral Solutions Pvt. Ltd.

Aaronia AG

Aselsan AS

Blighter Surveillance Systems Ltd.

Dedrone, Inc.

Dronesshield

Hensoldt

Rheinmetall AG

Rinicom Ltd.

KEY FINDINGS OF THE STUDY

By end-user, the military segment is expected to register a significant growth during the forecast period.

Depending on technology, the countermeasure systems segment is anticipated to exhibit significant growth in future.

On the basis of application, the ground station segment is projected to lead the global drone defense system market, owing to higher CAGR as compared to civil segment.

Region wise, Asia-Pacific is anticipated to register the highest CAGR during the forecast period.

Key Benefits For Stakeholders

This study presents analytical depiction of the global drone defense system market analysis along with current trends and future estimations to depict imminent investment pockets. The overall market opportunity is determined by understanding profitable trends to gain a stronger foothold.

The report presents information related to key drivers, restraints, and opportunities of the global market with a detailed impact analysis.

The current drone defense system market is quantitatively analyzed from 2020 to 2030 to benchmark the financial competency.

Porter's five forces analysis illustrates the potency of the buyers and suppliers in the industry.
