What sets Private Label's HD Lace Edges apart is the meticulous attention to detail in their creation. Each piece features pre-bleached knots, a step often overlooked by competitors, ensuring a natural appearance right out of the package. The 4-Pack includes two "I Stripes" and two "V Stripes" pieces, providing versatility in styling options.

Key features of the new HD Lace Edges include:

- Premium HD lace for invisible application
- 100% virgin human hair for natural styling
- Pre-bleached knots for immediate use
- Approximately 6-inch hair length

Reusable design for long-term value
2.5" x 1" net size for perfect coverage

"We understood that our customers needed a solution that was both high-quality and user-friendly," explains Mikey. "Our HD Lace Edges can be dyed from their natural 1B color to jet black, various browns, or honey blonde, offering unlimited styling possibilities."

The product's lightweight and natural design makes it easy to manage and manipulate along the hairline. The single-knot construction, combined with HD lace, provides the most natural-looking edges available in the market.

The launch comes at a time when baby hair styling continues to dominate beauty trends across social media platforms. "We've seen tremendous interest from both professional stylists and everyday consumers," notes Mikey. "The convenience of a reusable, premium-quality product that delivers consistent results has really resonated with our audience."
