

# ELM MicroGrid Achieves ISO Certification

THE COLONY, TX, UNITED STATES, October 30, 2024 /EINPresswire.com/ -- [ELM MicroGrid](#) an industry leader in microgrids and [battery energy storage systems](#), is pleased to announce today that it has earned ISO 9001 certification at its new facility in The Colony, TX. The comprehensive system audits covered every aspect of operations.

"Any company that has been through the certification process knows that achieving ISO 9001 certification is demanding," said Aron Bowman, President of ELM MicroGrid. "The completion of this certification is a testament to the hard work and dedication of the entire ELM MicroGrid Team and continues to demonstrate ELM's commitment to building world class energy products right here in the United States."

ISO 9001 is a quality management system standard that was developed by the International Organization for Standardization, which is an association of governmental and nongovernmental organizations from many countries. The ISO 9001 standard is utilized to certify quality management systems that focus on continuous improvement, customer satisfaction and the active involvement of both management and employees in a process-based approach.
