these areas. His service in the United States Army adds to his diverse and rich background, bringing a unique perspective to his writings.

Dr. Weitzman was driven to write "Chairman Biden and Dr. Fauci's Monster" to dispel the negative stereotypes associated with MAGA supporters of Donald Trump. "My goal in writing this book was to challenge the prevailing narratives that divide us and to stimulate a more nuanced discussion about political and moral dimensions in America today," Dr. Weitzman states. His motivation stems from a desire to bridge the significant gaps within the current political landscape of the United States.

The book argues that American politics operates on two distinct moral dimensions: the traditional "Right vs. Wrong", which he asserts guides the Republican Party, and the "Good vs. Evil", which he believes dictates the actions of the Democratic Party. Weitzman contends that the latter perspective allows the ends to justify the means to such an extent that it nearly obliterates the more conventional moral dimension of "Right vs. Wrong".

Dr. Weitzman expands on these themes in his recent interview with Logan Crawford on The Spotlight Network, facilitated by Atticus Publishing. This interview provides deeper insights into his thoughts and the extensive research behind his conclusions.
