Mountain River Landscape

Mountain River Landscape showcases the potential for bathroom vanity design to elevate the user experience while addressing the growing demand for eco-friendly solutions. By incorporating sustainable materials and production methods, this award-winning design demonstrates how the sanitary ware industry can adapt to meet the evolving needs of consumers and contribute to global carbon reduction efforts.

Inspired by the renowned Chinese painting "Thousand Miles of Rivers and Mountains," Mountain River Landscape features a custom-made 4-meter long wall-hung cabinet and countertop crafted from independently developed skin-feel artificial stone. The basin, molded in a single piece after 168 hours of meticulous polishing, mimics the flow of rivers and streams with its rolling hills texture. This unique design element creates a captivating landscape painting effect within the bathroom, embodying the concept of harmonious integration between humans and nature.

The recognition bestowed upon Mountain River Landscape by the A' Bathroom Furniture and Sanitary Ware Design Award serves as a testament to Wei Xu and Tiantian Xu's commitment to pushing the boundaries of bathroom design while prioritizing sustainability. This achievement is expected to inspire future projects within the brand, fostering further innovation and exploration of eco-friendly materials and production techniques that align with global carbon reduction targets.

Mountain River Landscape was designed by Wei Xu and Tiantian Xu, showcasing their expertise in crafting custom-made household products with a focus on shower doors, partition doors, shower cabinets, and polymer bathrooms.
