What Is The Estimated Market Size Of The Global Employment Screening Services Market And Its Annual Growth Rate?

The employment screening services market is projected to continue its strong growth, expected to reach \$6.48 billion by 2028, with a compound annual growth rate (CAGR) of 7.5%. This growth during the forecast period can be attributed to several key factors. There is an increasing emphasis on conducting thorough background checks for remote work, along with the adoption of advanced screening technologies that enhance the efficiency and effectiveness of the hiring process. Additionally, the growing importance of diversity and inclusion screening has become a priority for many organizations. The expansion of the gig economy and freelance work also contributes to this trend, as companies seek to verify the credentials of a more diverse workforce.
