

Global Feed Yeast Market Overview And Statistics For 2024-2033

The Business Research Company's Feed Yeast Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

LONDON, GREATER LONDON, UNITED KINGDOM, November 4, 2024

/EINPresswire.com/ -- The [feed yeast market](#) has experienced rapid growth

in recent years. It is projected to increase from \$3.2 billion in 2023 to \$3.55 billion in 2024, reflecting a compound annual growth rate (CAGR) of 10.8%. This growth during the historical period can be attributed to factors such as rising demand for animal protein, expansion in the livestock industry, a focus on animal nutrition, the ban on antibiotic growth promoters, and various government initiatives and regulations.

Growth Driver of The Feed Yeast Market

The rise in industrialized livestock production is expected to drive the growth of the feed yeast market. Livestock production encompasses products derived from farm animals and is a vital component of global agriculture, playing a significant role in food security and nutrition. Incorporating more yeast into animal feed enhances growth, health, and overall production.
