

ModernfoldStyles Transforms New Valley Hospital with Smoke Guard, Skyfold, and Modernfold Solutions

ModernfoldStyles enhances Valley Hospital with flexible, safety-focused space solutions, supporting a wellness-centered, adaptable healthcare environment.

PARAMUS, NJ, UNITED STATES, October 30, 2024 /EINPresswire.com/ -- The Valley Hospital recently opened the doors to its newly relocated, state-of-the-art facility in Paramus, NJ, bringing advanced, patient-centered healthcare services to the community. Valley Health System, renowned for its commitment to compassionate care, collaborated with ModernfoldStyles to integrate innovative space management solutions that enhance both safety and adaptability across the hospital.

Skyfold's retractable wall system enhances Valley Hospital's multipurpose rooms, allowing for rapid transformations to accommodate various patient and staff needs.

Valley Health's vision for a versatile, secure environment led them to partner with ModernfoldStyles, who joined forces with general contractor Torcon Inc. and HDR Architects and Engineers, P.C. The project included the installation of high-performance solutions, such as fifteen Smoke Guard M400 systems, three Skyfold Classic 51 partitions, and multiple Modernfold Acousti-Seal, Continuously Hinged, and Encore panels. Each of these systems was strategically placed to optimize key spaces, from elevator bays to multipurpose and conference rooms, creating adaptable, safe areas that support the hospital's operational needs.

Discover how ModernfoldStyles helped shape Valley Hospital's new facility into a wellness-centered space. This [in-depth case study](#) provides insights into the innovative design and product solutions tailored to meet Valley's unique requirements for flexibility and safety.
