NEW YORK, NY, UNITED STATES, October 31, 2024 /EINPresswire.com/ -- JUARA, the skincare and wellness brand inspired by the ancient Indonesian traditions of Jamu, has recently launched their [Triple Tea Antioxidant Essence](#). This release is an updated version of their Tamarind Tea Hydrating Toner, with redesigned packaging and a name that better encapsulates the product's skincare benefits.

The Triple Tea Antioxidant Essence is a silky-smooth gel that is designed to hydrate, soothe, and strengthen the skin's natural protective barrier. Formulated with tamarind seed extract, triple tea extracts, and hyaluronic acid, this skincare product is meant to address skin dryness and dehydration. The essence is unscented to minimize irritation, with a quick-absorbing and hydrating texture that makes it suitable for sensitive skin.

JUARA has selected ingredients that work synergistically to address common skin concerns while also promoting a deeper sense of well-being. Tamarind seed extract enhances skin elasticity and hydration; triple tea extracts—a premium blend of white, green, and black teas—provide a robust antioxidant shield and protect the skin from environmental stressors; and hyaluronic acid at a concentration of 0.2% serves as a deeply hydrating agent.

JUARA's new Triple Tea Antioxidant Essence, previously the Tamarind Tea Hydrating Toner, is a refreshing and silky smooth product that hydrates and refines the skin.

The Triple Tea Antioxidant Essence represents a harmonious fusion of time-honored traditions and contemporary skincare innovation.
