

Solar Stik® Earns Women-Owned Small Business Certification, Expanding Opportunities for Partnership and Diversity

ST. AUGUSTINE, FL, UNITED STATES, November 5, 2024 /EINPresswire.com/ -- [Solar Stik®](#), a pioneer in portable and autonomous power solutions, is proud to announce its certification as a Women-Owned Small Business (WOSB) by the Small Business Administration (SBA). This milestone further strengthens Solar Stik's mission to "save lives across the globe through innovative power solutions" by opening doors to expanded federal partnerships, offering new opportunities to meet the needs of diverse communities and government operations.

The [WOSB Federal Contract program](#) provides a level playing field for women business owners by reserving federal contracts in industries where women-owned businesses are historically underrepresented. Through this program, Solar Stik® will have exclusive access to "set-aside" contracts and be able to connect with an extensive support network that includes education, mentorship, and further growth opportunities.

“

We believe this will continue to help our customers fulfill a commitment to diversity and inclusion.”

*Dr. Stephanie D. Hollis,
President and CEO of Solar
Stik®*

“We are honored to officially be certified by the Small Business Administration as a Woman Owned Small Business,” said Dr. Stephanie D. Hollis, President and CEO of Solar Stik®. “Companies that have the need or desire to

diversify their partnerships can now work with Solar Stik, Inc to fulfill those requirements. We believe this will continue to help our customers fulfill a commitment to diversity and inclusion.”

At the heart of Solar Stik® is a passionate team driven by values of integrity, adaptability, collaboration, and a deep commitment to diversity and inclusion. "STIK Culture" embodies camaraderie and mutual respect, fostering an environment where every voice and talent contributes to the shared goal of delivering power solutions that meet the highest standards. This commitment is evident in the quality of Solar Stik's innovative, rugged power solutions, designed to support mission-critical operations in challenging environments worldwide.

Through the WOSB certification, Solar Stik® strengthens its ability to engage in meaningful partnerships, further supporting its mission to provide sustainable and resilient power to diverse communities and sectors. By working with clients dedicated to inclusion, Solar Stik® expands the reach of its adaptable, autonomous systems, helping provide essential power wherever it's needed.
