DIZPOT*

Key features of the patented product include a recyclable ASTM-certified child-resistant lid, a biodegradable tube, and a food-grade liner, designed to preserve product integrity and ensure consumer safety. This achievement highlights the company’s ongoing commitment to pioneering sustainable and compliant packaging solutions tailored for highly regulated markets.

Originally conceived in 2022, the newly patented paper tube was designed by seasoned team members Charlie Dains and AJ Keller. The product was created with the need to provide operators sustainable solutions with environmentally friendly materials and child-resistant technology.

“Securing this patent is a testament to the creativity and technical expertise we foster at DIZPOT,” said John Hartsell, Co-founder of DIZPOT. “As the regulatory landscape evolves, we are committed to delivering cutting-edge products that not only meet the highest compliance standards but also reduce our industry’s environmental footprint. This paper tube is just the first in a line of many patented designs we plan to bring to the market.”

Established in 2017 and cannabis-industry born, DIZPOT offers comprehensive packaging services for businesses from initial concept to the dispensary shelf, supporting companies through every stage of the supply chain.
