

7th Annual Beaches Home Tour Features Oceanfront Property Designed by Architect James Dupree with Amanda Webster Design

JACKSONVILLE BEACH, FL, UNITED STATES, November 5, 2024

[Design, Inc. \(AWD\)](#) is honored to be participating in the 7th Annual Beaches Tour of Homes being held Saturday, November 9th from 9AM to 5PM. The Tour features 13 unique homes that have been carefully curated, with one of them being an oceanfront property, designed by James Dupree in conjunction with AWD.

The homeowners purchased this site with an older home that they enjoyed for a long time. After much study and research with architect James Dupree they decided to start from scratch and design a new custom home. Some of the key design components of the

Pecoraro home include generous ceilings, elegant trimwork, creating space planning, expansive views, custom cabinetry, and a kitchen incorporating Wolf SubZero appliances. The interiors were designed around the client's lifestyle with natural tones, blue & green shades of the environment, and textured materials such as European Oak, tabbystone, aged metals, honed natural stone, and glass.
