

# Multi Function Analyzer by Hongqun Li Wins Bronze in A' Medical Industry Awards

*Innovative Chronic Disease Monitoring Platform Recognized for Excellence in Medical Device Design*

COMO, CO, ITALY, November 4, 2024 /EINPresswire.com/ -- The A' Design Award, a highly respected and well-recognized award in the field of medical product design, has announced the [Multi Function Analyzer](#) by [Hongqun Li](#) as a Bronze winner in the Medical Devices and Medical Equipment Design category. This prestigious recognition highlights the significance of the Multi Function Analyzer within the medical product industry, acknowledging its innovative design and potential to improve chronic disease management.

The Multi Function Analyzer addresses a critical need in the medical product industry by providing a comprehensive home chronic disease management platform. Its innovative design, which includes three blood test holes and an independent blood pressure test hole, enables users to monitor various chronic disease indicators such as blood glucose, lipids, blood pressure, and uric acid through a single blood collection. This feature not only enhances user convenience but also aligns with industry trends toward patient-centric care and integrated health monitoring solutions.

What sets the Multi Function Analyzer apart is its thoughtful design that combines functionality, user-friendliness, and aesthetic appeal. The device features a horizontal layout with the detection hole and result display area directly corresponding, allowing users to intuitively observe their results. The overall runway round design offers a comfortable feel while maintaining the professional appearance expected of medical products. Additionally, the one-button operation ensures ease of use, particularly for middle-aged and elderly users who may

Multi Function Analyzer

not require professional guidance.

Winning the Bronze A' Design Award in the Medical Devices and Medical Equipment Design category serves as a testament to Hongqun Li's commitment to innovation and excellence. This recognition is expected to inspire future designs within the brand, fostering further exploration and advancement in the field of chronic disease management. The award also motivates the team behind the Multi Function Analyzer to continue striving for cutting-edge solutions that enhance the quality of life for individuals dealing with chronic health conditions.

#### Team Members

The Multi Function Analyzer was designed by Hongqun Li, who served as the project's designer, and Shisheng Lin, who contributed to the development of the device.

#### About Hongqun Li

Hongqun Li is a marketing director and designer at an IVD company based in China. With a focus on innovative medical device design and development, she brings extensive expertise to the creation of cutting-edge solutions that address critical healthcare needs.

#### About Bronze A' Design Award

The Bronze A' Design Award recognizes outstanding designs that demonstrate a high level of creativity, practicality, and professional execution. The award acknowledges the skill and dedication of designers who develop innovative solutions that have the potential to positively influence industry standards. Winning designs in the Medical Devices and Medical Equipment Design category are evaluated based on criteria such as innovation, patient safety, ergonomics, ease of use, clinical efficacy, manufacturing feasibility, environmental impact, cost-effectiveness, aesthetic appeal, durability, and adherence to medical regulations.

#### About A' Design Award

The A' Design Award is an international and juried design competition that has been organized annually since 2008. Open to entries from all countries and industries, the award aims to recognize and promote superior products and projects that advance and benefit society. Through a rigorous blind peer-review process, entries are evaluated by a world-class jury panel of design professionals, medical product industry experts, journalists, and academics based on pre-established criteria. By showcasing pioneering designs on a global stage, the A' Design Award inspires and drives the cycle of innovation, ultimately contributing to the creation of a better world through the power of good design.
