Online Book Services Global Market Report 2024 –  
Market Size, Trends, And Global Forecast 2024-2033

The [online book services market](#) has experienced significant growth in recent years. It is projected to increase from \$21.78 billion in 2023 to \$23.41 billion in 2024, reflecting a compound annual growth rate (CAGR) of 7.5%. This growth during the historical period can be attributed to the expansion of internet accessibility, shifts in consumer preferences, the global e-commerce boom, increased convenience and accessibility, and the rise of e-reading devices.

What are the Key Drivers Fueling Growth in the Online Book Services Market?

The growing adoption of smartphones is expected to significantly enhance the growth of the online book services market in the future. A smartphone is a handheld electronic device that merges mobile phone capabilities with advanced computing features. The rise in smartphone usage greatly accelerates the online book services market by providing a vast platform for digital reading, improving accessibility, and promoting on-the-go reading experiences, ultimately encouraging the widespread acceptance of digital books.
