What Is Accelerating Growth in the Clinical Workflow Solutions Market?

The rising incidence of diseases is anticipated to accelerate the growth of the market. Effective clinical workflows enhance healthcare delivery and patient experiences for those suffering from various conditions. In 2021, the International Diabetes Federation estimated that approximately 537 million adults worldwide live with diabetes, with projections indicating significant increases in prevalence by 2030 and 2045. This growing disease burden is expected to drive demand for innovative clinical workflow solutions.
