

CarInsuRent Expands Services to Cover Peer-to-Peer (P2P) Car Sharing Rentals

LONDON, UNITED KINGDOM, November 7, 2024 /EINPresswire.com/ -- CarInsuRent, a leading provider of car hire excess coverage, is excited to announce the expansion of its services to include coverage for peer-to-peer (P2P) car sharing rentals. Responding to the booming P2P rental market, also known as the [Airbnb for Cars](#), CarInsuRent's new offering will provide drivers on popular platforms such as Turo and Getaround with comprehensive protection against damage and additional excess fees.

"We're thrilled to bring our trusted, affordable [car hire excess insurance](#) solutions to the P2P market," said Gil Farkash, CEO of CarInsuRent. "As P2P sharing continues to grow, our new [coverage options for renters](#) options meet the needs of a more flexible and user-driven car rental landscape."

By opting for third-party coverage with CarInsuRent, renters can save significantly while still having peace of mind during their trip. For example: when renting a car for \$50/ day for 7 days, Turo Premier coverage, which reduces the renter's liability from US\$ 3,000 to \$ 0 costs US\$ 227.50. If the renter takes out Turo's Minimum plan, which keeps them liable to pay US\$ 3,000 in the event that the rental vehicle is damaged, they'll only pay US\$ 70 for the coverage. If they combine this with CarInsuRent car sharing excess coverage, that cost only US\$ 55.84 for 7 days, they'll end up paying US\$ 125.84. This will save them US\$ 101.66, which is 45% less!

“

By opting to CarInsuRent's coverage renters can reduce their rental protection costs by more than 40%!"

CarInsuRent car sharing renters coverage can now be bought on its own for US\$ 104 / month and can be a money saver for those who use Turo for more than 10 days/month.

One of the strengths of P2P car sharing is the cheaper option compared to classic car sharing and car rental, making it an attractive choice for budget-conscious individuals. This move underscores CarInsuRent's commitment to innovation, serving modern rental models and broadening their customer base with essential, cost-effective protection
