HackerNoon has curated an initial list of 120k startups in the Business category, and welcomes additional nominations from across the globe.

EDWARDS, CO, UNITED STATES,
November 25, 2024 /

EINPresswire.com/ -- HackerNoon, the independent technology publishing platform, today announced that nominations for Startups of the Year 2024's Business category are now open.

HackerNoon's Startups of The Year is a 100% community-driven voting event recognizing startups that are transforming technology and the world for the better. In our previous editions, the community had the option to vote for the best startup based on cities, such as Sydney, London, or Singapore, divided into major regions of the world: Africa, Asia, Europe, North America, Oceania, & South America.

This year, HackerNoon is going a step further by not only highlighting startups by cities, but also by industries, including Business, to shed light on startups that are changing technology and the world for the better.
