

ECFX Launches ECFX Track: The Most Advanced Case Monitoring Platform for Law Firms

Venice, California – ECFX proudly announces the release of ECFX Track, the most advanced and comprehensive case monitoring platform available, built to streamline case tracking for law firms with unparalleled ease, security, and customization. Designed to eliminate the burdens of traditional case monitoring, ECFX Track combines intuitive case entry, anonymous and secure tracking, and automatic document storage.

“ECFX Track is designed to make case monitoring as effortless and secure as possible for law firms,” says Nelson Quintero, Co-Founder and COO at ECFX. “We listened to our clients and created a powerful solution that automates tasks while remaining flexible to adapt to unique workflows and uphold strict confidentiality standards. ECFX Track helps firms stay consistently informed, with complete peace of mind.”

ECFX Track integrates with thousands of federal and state courts across the country, identifying new filings as they become available. Law firms can seamlessly add cases to track without complex procedures or time-consuming data entry. The platform’s anonymous and secure tracking feature allows firms to monitor cases without compromising client confidentiality or exposing their interests.

Additionally, ECFX Track offers fully customizable email templates, enabling law firms to tailor notifications to their team’s preferences or their clients’ needs. Whether firms need immediate alerts or daily summaries, notifications can be crafted to deliver exactly the right information to the relevant team members at the right time.

Beyond notifications, ECFX Track automates DMS storage by applying custom naming conventions and storage policies, ensuring documents are automatically saved in the firm’s Document Management System, and organized according to the firm’s specific preferences. From November 1 to 30, ECFX is extending an exclusive opportunity to experience ECFX Track with a complimentary 30-day trial, allowing law firms to experience the full benefits of this powerful, secure, and flexible platform at no cost.

For more information on ECFX Track or to participate in this promotion, visit our website or contact sales@goecfx.com.

ECFX

ECFX was founded by legal and technology experts with a single goal: to address unmet automation needs in the legal industry. It is committed to filling in gaps in legal workflows with intelligently automated solutions, enabling firms to save time, gain control, mitigate risk, and improve visibility. Its premier product, ECFX Notice, automates the downloading, profiling,

storing, and distribution of court documents in ECF notices for both State and Federal courts—saving firms hundreds of hours a week to focus on the work clients value.
