Meat is either consumed as a processed meat product or as a component of kitchen-style food preparations. Processed meat is a meat that is modified to improve its taste and shelf life. Processed meat products are gaining ground in popularity and consumption volume in Asia-Pacific. The demand for processed meat is expected to increase due to surge in consumer demand for food products with multifunctional nutrition benefits. Therefore, meat processing equipment are designed based on the specific end-use requirements. In addition, automated food processing equipment has experienced a rise in demand due to increase in focus on production efficiency and cost reduction.

Factors that drive the growth of the Asia-Pacific meat processing equipment market are varied consumer trends toward use of ready-to-eat food products. Moreover, the rise in consumption of meat in different countries such as Japan, Philippines, China, and others also boost the market growth. In addition, rise in income levels and technological advancements are expected to fuel the demand for meat processing equipment over the forecast period. However, high cost of equipment is expected to hamper the growth of the Asia-Pacific meat processing equipment

market in the near future. Moreover, growth in focus toward safety while using meat processing equipment is expected to serve as a lucrative opportunity for market growth during the forecast period.

Fresh processed meat comprises meat mixes composed of finely comminuted, minced, or sliced muscle meat with variable fat content. The main characteristic of this group is that all meat and non-meat ingredients are added raw without any prior heat treatment. The fresh processed meat segment accounted for the significant share in the Asia-Pacific meat processing equipment market.

The report provides an extensive competitive analysis and profiles of the key market players such as Marel hf., GEA Group Aktiengesellschaft, Illinois Tool Works Inc. (Hobart), Equipamientos Crnicos, S.L. (Mainca), The Middleby Corporation, JBT Corporation, Siemens AG., Welbilt, Inc., Key Technology, INC., and Heat and Control, Inc.
