COVID-19 Scenario:

1. The COVID-19 pandemic had a positive impact on the growth of the global email marketing software market, owing to the increased internet penetration among people during lockdowns.
2. Lockdowns were implemented by the governments of various countries so as to limit the spread of the virus, and hence stringent social distancing restrictions were imposed. This enabled people to stay indoors and ultimately resulted in increased internet penetration.
3. As a result of this, rapid changes in activities in the firms took place including product launches, advertising, marketing, promotions, and media spending. Thus, the demand for email marketing software surged rapidly.
4. Countries such as U.S., UK, Germany, Canada, Russia, China, Japan and India have been active players in increasing the influence of email marketing tools during the pandemic.

The report offers detailed segmentation of the global email marketing software market based on channel, deployment mode, application, end use vertical, and region. The report provides a comprehensive analysis of every segment and their respective sub-segment with the help of graphical and tabular representation.
