

Key Modified Starch Market Trend 2024-2033: Focus on Natural Ingredients and Traceability

The Business Research Company's Key Modified Starch Market Trend 2024-2033: Focus on Natural Ingredients and Traceability

LONDON, GREATER LONDON, UNITED KINGDOM, November 8, 2024 /EINPresswire.com/ -- [The Business Research Company's](https://www.thebusinessresearchcompany.com/) Early Year-End Sale! Get up to 30% off detailed market research reports—limited time only!

The modified starch market has shown strong growth, expected to rise from \$12.12 billion in 2023 to \$12.86 billion in 2024, with a CAGR of 6.1%. Contributing factors include globalization, regulatory changes, industrialization, demand for gluten-free products, and expansion into non-food sectors.

Global Modified Starch Market Size: What Are the Forecasts for Market Growth and Annual Expansion?

It will grow to \$16.34 billion in 2028 at a compound annual growth rate (CAGR) of 6.2%."

The Business Research Company

The market is expected to grow steadily, reaching \$16.34 billion by 2028, at a CAGR of 6.2%. This growth is driven by increasing demand for convenience foods, the growth of the functional foods market, expanding applications in the pharmaceutical industry, the need for sustainable packaging solutions, and trends towards gluten-free products. Key trends include clean label demands, functional food demand, rising health consciousness, and the expansion of the food industry.
