

# Enterprise Networking Market Projections Show US\$ 313.72 Billion by 2032 with a Remarkable 5.4% CAGR

*The augmenting acquisition of wireless devices amidst firms is driving the market demand*

NEW YORK CITY, NY, UNITED STATES, November 7, 2024 /EINPresswire.com/ -- Our enterprise networking market report has been prepared using advanced methodologies and research techniques to help businesses make strategic business decisions.

The prominent goal of an enterprise network is to reinforce the firm's objectives by ascertaining dependable and steady digital services for IoT devices"

*Polaris Market Research*

Enterprise networking market is projected to reach US\$ 313.72 billion by 2032, growing at a CAGR of 5.4% from US\$ 196.43 billion in 2023. The market is driven by the increasing adoption of IoT devices and the need for secure and reliable network connections.

Enterprise networking market is projected to reach US\$ 313.72 billion by 2032, growing at a CAGR of 5.4% from US\$ 196.43 billion in 2023.

In an enterprise setup, data centers, branch offices, public and private clouds, IoT devices, and the discrete employees of a firm all require dependable network connections. These connections sanction enterprises to interchange data, operate business procedures, and survey what takes place on the network. Basically, the network renders operating the business feasible.

Enterprise networking market is projected to reach US\$ 313.72 billion by 2032, growing at a CAGR of 5.4% from US\$ 196.43 billion in 2023.

Dissimilar to the internet, enterprise networks are not accessible to anybody who desires to connect. Enterprise networks restrict connectivity to particular users, devices, and facilities. The growing concentration on network security and privacy pushes the enterprise networking market demand.

Enterprise networking market is projected to reach US\$ 313.72 billion by 2032, growing at a CAGR of 5.4% from US\$ 196.43 billion in 2023.

Emerging Technologies: Surfacing technologies such as AI, ML, 5G, and cloud computing push

the market ahead. These technologies need a strong framework to manage extensive aggregate data in real-time, boosting the demand for enterprise networking market growth.

**Growing Remote Work:** The market CAGR is being propelled by the rising approval of distant work. According to the data produced by Owl Lab State of Remote Work report worldwide, 16% of firms are entirely remote in 2022. Distant work demands dependable and secure connections for workers operating from several locations.

**Proliferation of Cloud Services:** The growing spread of cloud services is expected to ignite the market. Several cloud applications, especially those including real-time data processing or allied instruments, need low latency for maximum performance.

Key players in the Enterprise Networking Market include:

- A10 Networks, Inc.
- ZTE Corporation
- Riverbed Technology
- Juniper Networks, Inc.
- ALE International
- Broadcom
- Cisco Systems, Inc.
- Dell Inc.
- Hewlett Packard Enterprise Development LP
- Cloudflare, Inc.
- Arista Networks, Inc.
- Extreme Networks.
- Palo Alto Networks
- Netskope
- STL Tech
- Check Point Software Technologies Ltd.
- Lavelle Networks

Market Segmentation:

- The enterprise networking market segmentation is based on equipment, infrastructure, connection, technology, end users, and region.
- By equipment analysis, the Ethernet switches segment held the largest market share. This is due to their important part in easing accelerated data transfer and dependable connectivity.
- By infrastructure analysis, the outsourced segment is poised to register a significant CAGR. This is due to the growing inclination of firms for third party donors to encounter their networking requirements.

Market Coverage:

The research report covers all the major regions and sub-regions of the enterprise networking market. The study provides market insights into North America, Europe, Asia Pacific, Latin America, and the Middle East & Africa.

Asia Pacific: Asia Pacific accounted for the largest market share. This is primarily because of the speedy digital transformation covering prominent economies such as China and India.

North America: North America is anticipated to witness the fastest CAGR from 2024 to 2032. The region's robust concentration on technological invention and string funding in digital framework fuels the regional market expansion.

Market Research Report:

Q1:

How much is the enterprise networking market worth?

The market size was valued at USD 206.68 billion in 2024 and is projected to grow to USD 313.72 billion by 2032.

Q2: What is the growth rate of the enterprise networking market?

The market is projected to grow at a CAGR of 5.4% during 2024–2032.

Q3: Which region held the largest market share?

Asia Pacific held the largest share of the market in 2023.

Q4: Which equipment is expected to register a significant CAGR in the market?

The WLAN segment is projected for significant growth in the market.
