What Is the Estimated Growth Rate and Market Size of the Global Kitchen Cabinet Market?

The kitchen cabinet market is expected to continue its strong growth over the next few years, reaching \$210.12 billion by 2028 at a compound annual growth rate (CAGR) of 7.7%. This projected growth is attributed to the rise of modern design trends, increasing renovation and remodeling activities, a demand for customization and personalization, advancements in materials, and the integration of smart kitchen technologies.
