Global Needle Holder Market is projected to reach US\$ 762.97 million by 2034, growing at a CAGR of 7.6% from 2024 to 2034. The market is expected to reach US\$ 365.74 million in 2024.

The image shows the cover of a market research report titled 'Needle Holder Market' by POLARIS MARKET RESEARCH. The cover features a blue background with two surgical needle holders. At the bottom, there is a white box containing the text 'US\$ 762.97 MN Revenue Forecast in 2034' next to an upward-pointing arrow icon.

What is a Needle Holder?

A needle holder is one of the most customary surgical instruments. Surgeons utilize them to suture needles in the course of the surgical process. Similar to other instruments, their accuracy and superiority promote triumphant surgeries. It resembles surgical scissors. It decreases the probability of slippage by securely holding the needles.
