Technologies, Inc., a global leader in tactical waveforms and communications systems, held its 8th Annual Working Group Meeting on October 23-24 in San Diego. TrellisWare's annual event highlighted TrellisWare's newest technology introductions and industry partners' collaboration efforts. The event welcomed several hundred participants from diverse government and commercial organizations worldwide, including the United States, Europe, Australia, Canada, Asia, and Latin America.

The event included the launch of TrellisWare's newest multi-waveform highly integrated handheld radio, the TW Shadow™ 750, and the introduction of its Wideband Frequency Hopping waveform. Presentations from TrellisWare product experts and real-world case studies from the user community rounded out two full days. In addition, the Partner Vendor Showcase area allowed attendees to connect with and share ideas with partners, vendors, and TrellisWare's engineering teams.
