>
> This partnership provides us with an incredible platform to collaborate with industry leaders and contribute to shaping the future of managed services."
>
> *Rocco Guerriero - CEO*

The MSPAA is dedicated to advocating for MSPs in the US business community. By joining the MSPAA, Contour Data Solutions aligns itself with other top-tier service providers who share a commitment to elevating service standards and fostering innovation in the industry.

"Joining MSPAA is a natural extension of our mission to drive success for businesses through innovative IT solutions," said Rocco Guerriero, CEO of Contour Data Solutions. "This partnership provides us with an incredible platform to collaborate with industry leaders and contribute to shaping the future of managed services."

Introducing Cinch Software to MSPs
As part of its membership with MSPAA, Contour Data Solutions is excited to offer its flagship platform, Cinch Software, to members of the Managed Service Providers Association® at no cost. Cinch Software is a comprehensive IT management solution specifically designed to empower

MSPs by simplifying operations, enhancing security, and delivering powerful analytics for smarter decision-making.

"Cinch Software is a game-changer for MSPs," Guerriero added. "It simplifies the complexities of IT management and security, allowing MSPs to provide more efficient, effective services to their clients. We're excited to offer this tool to our peers in the industry through our partnership with MSPAA."

Driving Innovation in Managed Services
Contour Data Solutions has long been at the forefront of providing cutting-edge IT services, including cloud migration, disaster recovery, and IT security solutions. As part of the MSPAA, Contour aims to collaborate with other MSPs to push the boundaries of what's possible in the managed services industry.

Cinch is designed so that you are in full control. You can deploy servers your way and on your time. You can pause them when you are not using them so your don't have to pay for what you do not consume. You can view all of your devices in one central

According to Mordor Research, the managed services market will grow to $274 billion by 2026, up from $152 billion in 2020,

By combining forces with MSPAA, Contour Data Solutions gains access to an extensive network of professionals, resources, and educational opportunities designed to foster the growth and development of the managed services sector. This collaboration allows Contour to further enhance its offerings and continue driving innovation within the industry.

About Contour Data Solutions
Contour Data Solutions has built a reputation as a trusted advisor to businesses, providing solutions that optimize IT environments and ensure smooth operations. Its involvement with MSPAA signals a deepened commitment to serving the MSP community and contributing to the ongoing success of MSPs across the nation.
