The [industrial maintenance services market size](#) has experienced significant growth in recent years, projected to increase from \$51.43 billion in 2023 to \$54.98 billion in 2024, representing a compound annual growth rate (CAGR)

of 6.9%. This growth during the historical period can be attributed to the expansion of the oil and gas industry, a rising demand for maintenance services, economic growth, and urbanization trends.

What Is the Expected Size of the Global Industrial Maintenance Services Market, and How Fast Will It Grow?

The industrial maintenance services market size is anticipated to experience robust growth in the coming years, projected to reach \$71.75 billion by 2028, with a compound annual growth rate (CAGR) of 6.9%. This growth during the forecast period can be linked to the rising adoption of predictive maintenance and remote monitoring, an increasing demand for safe, economical, and reliable infrastructure connectivity, the need for specialized services, concerns regarding aging infrastructure, and a focus on preventive maintenance strategies.
