EINPresswire.com/ -- BeneLynk, a national provider of social care solutions to managed care plans, has seen how a Veteran's experiences and service are essential parts of their healthcare journey. Our innovative [Veteran Lynk service](#) allows BeneLynk to seamlessly communicate Veterans' care received through the Department of Veterans Affairs (VA) to the Veteran's managed care plan, ensuring an integrated healthcare experience. By bridging the gap between VA and other health services, Veteran Lynk enables plans to deliver more holistic and informed care to Veterans.

This year, BeneLynk significantly broadened the reach of its Veteran Lynk service by forging new partnerships with the nation's premier health plans, covering more than 22 million Medicare Advantage members. These new partnerships have allowed BeneLynk to connect with a growing number of Veterans in Medicare Advantage to ensure they receive the care coordination and resources they deserve.
