

TESCO Solidifies Leadership in Electric Meter and EV Charging Station Accuracy

Innovative Testing Solutions Ensure Precision in Power and EV Charging Metering

BRISTOL, PA, UNITED STATES,
November 12, 2024 /

EINPresswire.com/ -- TESCO (The Eastern Specialty Company), a pioneer in metering solutions since 1904, reaffirms its commitment to excellence in electric meter and Electric Vehicle (EV) charging station accuracy. With a suite of advanced testing products—including the DTS-2990, FTS-2990, 6330, T4000, and PL4000—TESCO continues to set industry standards for precision and reliability.

Comprehensive Testing Solutions

TESCO's product lineup offers both laboratory-grade and field-ready tools designed to meet the rigorous demands of modern utilities and EV infrastructure providers:

DTS-2990 Desktop Meter Test Station: This state-of-the-art, ANSI-compliant test board provides full series-parallel meter testing in a compact, budget-friendly desktop package. It accommodates all common electromechanical and solid-state meters up to 50 amps, ensuring comprehensive testing under a wide range of conditions.

FTS-2990 Field Meter Test Station: Inspired by the DTS-2990, the FTS-2990 brings lab-quality accuracy to the field in a portable, rugged configuration. Housed in a durable Pelican case, it offers full series-parallel meter testing for all common solid-state meters up to 50 amps, making it an indispensable tool for field technicians.

6330 Meter Site Analyzer: This all-in-one, ultra-lightweight field test kit is designed for comprehensive testing of transformer-rated metering installations. Weighing only 17.8 lbs, it enables utilities to verify site accuracy, test current transformers (CTs), and perform meter testing, ensuring correct billing and revenue protection.

T4000 EVSE Tester and PL4000 Load Box: TESCO's Electric Vehicle Supply Equipment (EVSE) testing solutions include the T4000 tester and PL4000 load box, designed to meet the exact requirements set by Handbook 44 and support current and anticipated

standards set by federal and state Weights & Measures departments. These tools provide comprehensive testing capabilities for both AC and DC EV chargers, ensuring accurate energy delivery and compliance with industry standards.

TESCO's commitment to innovative metering solutions enhances utility and EV charging accuracy. Our products equip technicians with reliable tools to uphold electric metering integrity."
