Clarity Tattoo Removal proudly brings PicoWay® Treatment to Davis Square!

“

We are thrilled to introduce our services in Davis Square to better serve our valued clientele.”

Geoffrey Reilinger

The Candela PicoWay® laser is an advanced technology used for tattoo removal that operates using ultra-short picosecond laser pulses. Unlike traditional lasers that rely primarily on heat, the PicoWay® uses photoacoustic energy to break down the tattoo ink into tiny particles. This high-energy pulse targets the pigment in the tattoo while minimizing damage to the surrounding skin, making it suitable for various skin types. The PicoWay's precision

allows for the effective removal of tattoos of different colors, including stubborn shades like blue and green, often with fewer treatments and less discomfort than older laser systems.

Driven by a commitment to excellence, Clarity Tattoo Removal utilizes Candela's Picoway® Picosecond laser, which is the latest in laser technology, to achieve the fastest, most comprehensive, and least painful tattoo removal treatments tailored to meet the unique needs of each client. In addition to expanding its service offerings, Clarity Tattoo Removal has also invested in state-of-the-art facilities and continued education for its certified practitioners to ensure that clients receive the highest quality of care. The center's seasoned team of professionals is dedicated to staying abreast of the latest trends and techniques in the tattoo removal, spa, and wellness industry to deliver the highest quality of service.

"We are thrilled to introduce our services in Davis Square to better serve our valued clientele," said Geoffrey Reilinger, Owner of Clarity Tattoo Removal. Our goal is to create a comfortable environment where individuals can rid themselves of a past decision that may be haunting them;

It's now possible, and with our new technology, we are confident that we can provide an answer that will make you smile, he added.

Clarity Tattoo Removal invites clients to experience the power of Picoway®, and the results achieved through the Picosecond technology. To celebrate this milestone, they are offering 30% off all packages and multi-session packages.
