

# New Book by Pastor Thomas Lepa Explores the United States' Christian Heritage and Offers a Visionary Path to Restoration

NEW YORK, NY, UNITED STATES, November 14, 2024 /EINPresswire.com/ -- In *A Nation Reborn*, Pastor Thomas Lepa examines the U.S.'s Christian origins and its drift from these founding principles. He offers a positive path toward the restoration of faith-based roots. This work brings historical insight and a solid call to action to Americans who want to restore their country's defining values.

Lepa's book merges historical analysis, theological understanding, and Christian renewal contributions that greatly aid discussions on faith, culture, and national identity. It speaks to those troubled by the direction of modern America and longing for a return to its Christian character.

Unpacking the Four Pillars of America's Faith Journey

The book has four major sections that outline phases in America's spiritual evolution, trace the nation from its roots to today, and present a vision for tomorrow.

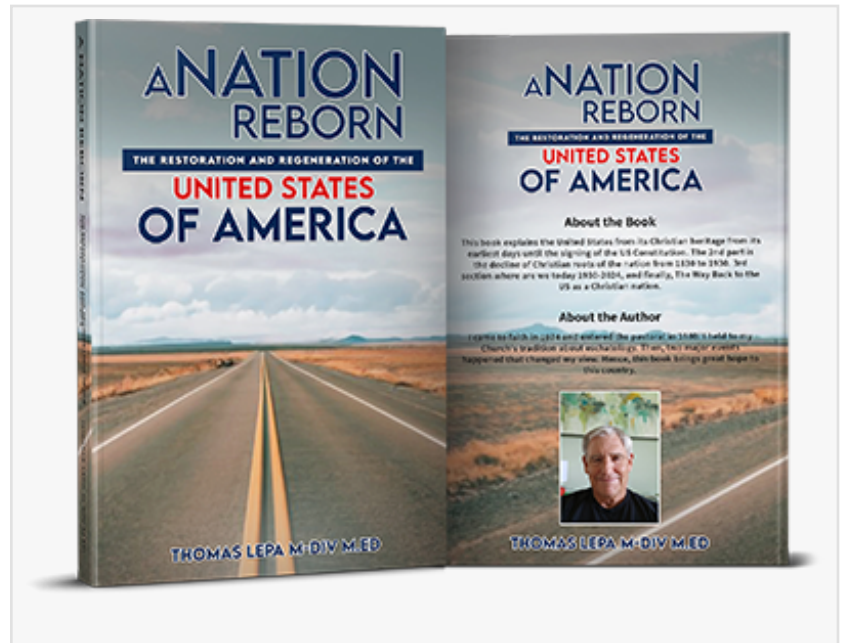

- America's Christian Foundations (Founding to Constitution Signing)

The first part looks back into the early years and shows exactly how Christian principles influenced the founding fathers, laws, and morals during the country's early years. Lepa studies how biblical values inform laws, social rules, and national identity, from the Pilgrims' search for religious freedom to the Declaration of Independence and the Constitution, demonstrating faith as a public force guiding growth.

- The Decline of Christian Influence (1830–1930)

The second section analyzes the forces that disestablished America's Christian foundations. It was the secular ideology period that ran from 1830 through 1930, marked by industrialization, uprooting culture, and changing perceptions beyond biblical frames. Lepa outlines key events and movements within this decline, such as rationalism's rise and subsequent challenges to traditional understandings of Christian teachings.

- America Today: Assessing the Damage (1930–2024)

The third part is a candid assessment of the present spiritual and cultural landscape in America. Lepa examines how far the country has drifted from its bedrock Christian ideology by examining issues such as moral relativism, declining church attendance, increased policy secularization, and rising societal divisions.

- A Path to Restoration: Reclaiming America's Christian Identity

The final section delivers a roadmap for America to regain its Christian heritage. Lepa conceives of revival that rekindles spiritual values of unity, compassion, justice, and shared purpose. Practical steps to begin reformation among individuals, churches, and communities are suggested in order to rebuild faith-based foundations at individual and community transformation, spiritual leaders of influence, and collective citizen power.

### A Message of Hope for America's Future

Thomas Lepa's *A Nation Reborn* extends beyond simple history analysis. He appeals to the reader to question the values he holds in his heart and to keep working towards his dream of spiritual rebirth. This is a message of hope and positive appeal to new belief systems that call for faith and courage in hand.

"Many felt an increasing sense of uncertainty regarding the direction our country is headed," Lepa says. "This book is about rediscovering our foundation, learning from our past, and finding hope for the future. It's about recognizing the fact that while our challenges are great, so is the potential for a faith-driven renaissance."
