

# LARUS Offers Fast IP Address Leasing in Just 48 Hours

---

HI, UNITED STATES, November 13, 2024 /EINPresswire.com/ -- In response to the global shortage of IPv4 addresses, LARUS is announcing its new expedited IP address leasing service, offering businesses access to IPv4 resources within just 48 hours. This fast, flexible leasing solution helps organizations quickly meet their network expansion needs, ensuring businesses can scale their operations efficiently without the long wait times traditionally associated with acquiring IPv4 addresses.

As IPv4 address exhaustion continues to present challenges across the internet landscape, companies seeking to expand their networks often struggle to secure the necessary IP addresses in a timely manner. LARUS' new service addresses this growing concern by significantly reducing the time it takes to acquire critical IPv4 resources. This rapid leasing option ensures that businesses can continue their operations smoothly while they transition toward [IPv6 adoption](#).

Our new 48-hour leasing service is designed to provide businesses with the IPv4 addresses they need to grow without delay. In today's fast-paced digital landscape, speed and efficiency are critical, and LARUS is proud to offer a solution that delivers just that."

The service is ideal for businesses looking for short-term or temporary IPv4 address solutions, such as during network upgrades, project-based expansions, or regional launches. LARUS offers flexibility in lease durations, allowing companies to [lease IPv4 addresses](#) for as long as needed without the long-term commitment or financial burden associated with purchasing large address blocks.

LARUS' rapid leasing service also includes comprehensive support and expert guidance throughout the leasing process. Their team ensures that businesses are fully compliant with [Regional Internet Registry](#) (RIR) policies and helps manage address allocations, optimizing the IP leasing experience for clients.

In addition to helping businesses secure the IPv4 addresses they need quickly, LARUS is committed to supporting the transition to IPv6. By offering businesses a way to bridge the gap between IPv4 shortages and IPv6 adoption, LARUS provides a forward-thinking solution for future-proofing networks.

The company's commitment to transparency, security, and customer satisfaction makes LARUS a

trusted partner for businesses navigating the complexities of IP address management in an increasingly interconnected world.

#### About LARUS

LARUS is a global leader in IP address brokerage, specializing in flexible leasing and purchasing solutions for IPv4 and IPv6 addresses.
