# Global Artificial Intelligence (AI) In Personalized Nutrition Market Set For 23.5% Growth Reaching $8.51 Billion By 2028

The Business Research Company's Global Artificial Intelligence (AI) In Personalized Nutrition Market Set For 23.5% Growth, Reaching $8.51 Billion By 2028

LONDON, GREATER LONDON, UNITED KINGDOM, November 14, 2024 /EINPresswire.com/ -- The Business Research Company's Early Year-End Sale! Get up to 30% off detailed market research reports—limited time only!

The artificial intelligence (AI) in personalized nutrition market has seen substantial growth recently, increasing from $2.96 billion in 2023 to $3.66 billion in 2024, growing at a CAGR of 23.4%. Factors such as rising demand for personalized wellness solutions, growing awareness of nutrigenomics, the rise of wearable health technologies, increased smartphone use, and higher disposable incomes have fueled this expansion.

Artificial Intelligence (AI) In Personalized Nutrition Global Market Report 2024 – Market Size, Trends, And Global Forecast 2024-2033

How Big Is the Global Artificial Intelligence (AI) In Personalized Nutrition Market Expected to Grow, and What Is Its Annual Growth Rate?

> It will grow to $8.51 billion in 2028 at a compound annual growth rate (CAGR) of 23.5%. "
>
> *The Business Research Company*

The artificial intelligence (AI) in personalized nutrition market is set for significant expansion, reaching $8.51 billion by 2028, with a CAGR of 23.5%. Factors fueling this growth include rising investments in health tech, an aging population, increasing lifestyle diseases, the adoption of AI in precision medicine, and the growing prevalence of conditions like diabetes and obesity. Major trends include the development of AI-powered nutrition platforms,

genetic data analysis, integration with IoT devices, predictive analytics for supplements, advanced meal planning algorithms, and the adoption of new technologies.

Which Leading Companies Are Driving The Growth Of The Artificial Intelligence (AI) In Personalized Nutrition Market Share?
Major companies operating in the market are Appinventiv, LemonBox, Culina Health, Viome Inc., EIT Food, Zoe Ltd., Habit, Nutrify LLC, Nutrino Health Ltd., January AI, Nutrigenomix Inc., InsideTracker, Persona Nutrition, Suggestic Inc., Spur Fit, BiteAI , BetterMeal AI, EatLove , Nourished, DayTwo

What Are The Key Trends Driving The Growth Of The Artificial Intelligence (AI) In Personalized Nutrition Market Size?
Prominent companies within the artificial intelligence in personalized nutrition sector are dedicating efforts to develop AI-driven food and recipe platforms that provide tailored meal suggestions. These AI-powered platforms generate customized meal recommendations, recipes, and dietary plans based on individual preferences, nutritional requirements, and health data.

How Is the Global Artificial Intelligence (AI) In Personalized Nutrition Market Segmented?
1) By Type: Machine Learning, Deep Learning, Natural Language Processing, Computer Vision
2) By Applications: Meal Planning And Recommendation, Nutrients Analysis, Personalized Supplementation, Allergen And Sensitivity Detection, Health Monitoring
3) By End-User: Individual, Fitness And Wellness Center, Healthcare Provider, Food Manufacturers

North America: The Leading Region in the Artificial Intelligence (AI) In Personalized Nutrition Market
North America was the largest region in the artificial intelligence (AI) in personalized nutrition market in 2023. The regions covered in the artificial intelligence (AI) in personalized nutrition

marker report are Asia-Pacific, Western Europe, Eastern Europe, North America, South America, Middle East, Africa.

What Is the Artificial Intelligence (AI) In Personalized Nutrition Market?
Artificial intelligence (AI) in personalized nutrition involves the use of AI technologies such as machine learning, natural language processing, and data analytics to create customized dietary recommendations based on individual characteristics. These systems analyze vast data from scientific studies, personal health records, and food databases to develop plans that optimize health, prevent disease, and promote well-being, offering more accurate and personalized dietary strategies.

The Artificial Intelligence (AI) In Personalized Nutrition Global Market Report 2024 from The Business Research Company includes the following key information:
• Market size data for both historical and future periods
• Analysis of both macro and microeconomic factors that have impacted the market over the past five years
• Regional market analysis covering Asia-Pacific, China, Western Europe, Eastern Europe, North America, the USA, South America, and the Middle East and Africa
• Country-specific market analysis for Australia, Brazil, China, France, Germany, India, Indonesia, Japan, Russia, South Korea, the UK, and the USA.

Overview of the Global Artificial Intelligence (AI) In Personalized Nutrition Market Report: Trends, Opportunities, Strategies, and More
The Artificial Intelligence (AI) In Personalized Nutrition Global Market Report 2024 from The Business Research Company is an extensive resource that delivers insights into artificial intelligence (ai) in personalized nutrition market size, artificial intelligence (ai) in personalized nutrition market drivers and trends, artificial intelligence (ai) in personalized nutrition market major players, artificial intelligence (ai) in personalized nutrition competitors' revenues, artificial intelligence (ai) in personalized nutrition global market positioning, and artificial intelligence (ai) in personalized nutrition market growth across geographies. This report provides valuable in-depth insights into potential opportunities and strategies. Companies can utilize the information presented to target segments with the greatest growth potential.

What Services Does The Business Research Company Offer?
The Business Research Company has published more than 15,000 reports spanning 27 industries and over 60 regions. Our research is supported by 1.5 million datasets, thorough secondary research, and unique insights gained from interviews with industry experts. We offer ongoing and customized research services, featuring a variety of specialized packages designed to meet your specific needs, such as Market Entry Research, Competitor Tracking, Supplier & Distributor Packages, and many others.

Our flagship product, the Global Market Model, serves as a leading market intelligence platform that provides comprehensive and updated forecasts to facilitate informed decision-making.
