

Lap and Wrap by Hatsuo Morimoto Wins Bronze in A' Architecture Awards

Innovative Residential Design Recognized for Excellence in Architecture, Building and Structure Design Category

COMO, CO, ITALY, November 13, 2024

/EINPresswire.com/ -- The A' Design Award, a highly respected and well-recognized award in the field of [architecture](#) design, has announced Lap and Wrap by [Hatsuo Morimoto](#) as a Bronze winner in the Architecture, Building and Structure Design category. This prestigious recognition highlights the exceptional design and innovation of Lap and Wrap within the competitive Architecture industry.

Lap and Wrap's recognition in the A' Architecture, Building and Structure Design Award category underscores its relevance to current industry trends

and needs. The design aligns with Architecture industry standards and practices, offering practical benefits for users, the industry, and other stakeholders through its innovative approach to residential architecture.

Lap and Wrap stands out for its unique combination of a retaining wall and building foundation, optimizing space and creating a distinctive architectural expression. The outer wall overlaps in a belt-like shape, providing privacy from the road while integrating the living space with the garden through numerous windows and eaves. The use of recycled materials and the seamless connection between indoor and outdoor spaces further enhance the design's functionality and aesthetics.

This recognition from the A' Architecture, Building and Structure Design Award serves as motivation for Hatsuo Morimoto and the moKA architectural design office team to continue

Lap and Wrap

pursuing excellence and innovation in their future projects. The award highlights the potential for Lap and Wrap to inspire further exploration and advancement within the residential architecture sector.

About Hatsuo Morimoto

Hatsuo Morimoto is a Japanese residential architect who believes that houses should act as devices that connect to the city, rather than mere boxes for storing people. By designing homes that connect people and things, Morimoto aims to bring cities to life without the need for large capital. Clients of moKA architectural design office are interested in the value that homes can bring as shared assets of the city, and Morimoto's approach focuses on editing the city by designing both the exterior and interior of houses.

About moKA architectural design office

moKA architectural design office, led by Hatsuo Morimoto, is a Japanese residential architecture firm that believes in the power of design to connect people and things, ultimately bringing cities to life without the need for large capital. The firm's clients share an interest in the value that homes can bring as shared assets of the city. Morimoto's approach at moKA architectural design office involves editing the city by designing both the exterior and interior of houses, creating spaces that integrate with and contribute to their urban surroundings.

About Bronze A' Design Award

The Bronze A' Design Award recognizes notable designs that demonstrate creativity, practicality, and professional execution in the Architecture, Building and Structure Design category. Winning designs are selected based on rigorous evaluation criteria, including innovative use of space, structural integrity, aesthetic appeal, environmental impact, functional efficiency, material selection, technological integration, social relevance, cultural sensitivity, economic viability, design originality, user comfort, energy efficiency, adaptability to change, use of natural light, spatial harmony, safety measures, accessibility considerations, resilience to weather, and integration with surroundings. The Bronze A' Design Award acknowledges the skill and dedication of designers who create works that have the potential to positively influence industry standards and enhance people's lives.

About A' Design Award

The A' Design Award is an international, juried design competition organized annually since 2008 across all industries, with participation open to entries from all countries. The award aims to recognize and promote superior products and projects that advance and benefit society, contributing to the creation of a better world. Through a rigorous blind peer-review process, entries are evaluated by a world-class jury panel of influential experts, including design professionals, industry leaders, journalists, and academics. By showcasing pioneering designs on a global stage and celebrating the creative minds behind these innovations, the A' Design Award

drives forward the cycle of inspiration and advancement in design. Interested parties may learn more about the A' [Design Awards](#), explore jury members, view past laureates, and participate with their projects at:
