*Pulse PEMF has officially announced a partnership with Humanut Health.*

CARTERSVILLE, GA, UNITED STATES,  
November 18, 2024 /

EINPresswire.com/ -- Pulse PEMF manufactures state of the art PEMF technology right here in the USA. If you aren't familiar with Pulse PEMF, PEMF stands for pulsed electromagnetic field therapy.

This therapy stimulates the cells by providing energy from the machine to recharge cells that have low voltage due to stress, fatigue, recent injury or disease. Pulsing encourages the cell membrane to open and close allowing for toxins to flow out and new energy to flow in, enhancing mitochondria function.
