

# Life for Relief and Development (LIFE) Provides Emergency Aid in Sudan

*Life for Relief and Development (LIFE) Brings Hope to the People of Sudan by Providing over 1,000 People with Emergency Food Aid*

SOUTHFIELD, MI, UNITED STATES,  
November 14, 2024 /

EINPresswire.com/ -- Since the beginning of the conflict in Sudan last April, many civilians have been forced to flee, including people who were already internally displaced and refugees from other countries who had pursued refuge in Sudan.

Recently, hundreds of thousands of people have fled from Sudan into neighboring countries or returned home in difficult circumstances, mostly fleeing to countries such as the Central African Republic, Chad, Egypt, Ethiopia, Libya, South Sudan and Uganda. Others self-relocated within Sudan, hoping for a brighter future.

Recently, [Life for Relief and Development](#) (LIFE) has provided families in Kassala, Sudan with emergency food aid to over 1,000 people impacted by the conflict. The food distribution fostered community resilience and alleviated hunger during the crisis, while also increasing community solidarity and gratitude towards humanitarian efforts, promoting a sense of hope and support amongst beneficiaries.

In the parched, challenging landscape of Kassala State, Sudan, Aisha—a resilient widow and mother of six—has found herself and her family caught in the relentless conflict and hardship. Displaced from their home, they now live in an IDP camp for internally displaced persons, struggling each day to make ends meet. The weight of providing for her children alone has been overwhelming. Aisha’s days are spent searching for any opportunity to find food and water, unsure when or how she might be able to provide a stable meal for her young ones. Her children often go to bed hungry, and the stress of not being able to care for them as she would want gnaws at her heart.

Recently, however, a glimmer of hope reached Aisha in the form of an emergency relief distribution, made possible by LIFE. Aisha received a food basket packed with essentials, including sugar, flour, pasta noodles, salt and oil. She thanked LIFE for their support during such a vulnerable time for her and her loved ones.

“Food insecurity in Sudan has skyrocketed, leaving a third of the population at risk of starvation. Malnutrition, particularly among children, is on the rise due to a lack of resources and skyrocketing food prices. Diseases are spreading rapidly in overcrowded camps and settlements where people lack adequate shelter, clean water, and sanitation. Meanwhile, humanitarian organizations struggle to deliver aid because of unsafe conditions and limited funding,” said Dr. Hany Saqr, CEO of LIFE.

Based in Southfield, Michigan, Life for Relief and Development (LIFE) is a global humanitarian organization. It has earned a four-star rating and a 99% score from Charity Navigator. LIFE is committed to delivering humanitarian assistance to individuals, irrespective of their race, gender, religion, or cultural heritage. As a registered 501(c)(3) non-profit entity, LIFE holds Consultative Status with the Economic and Social Council of the United Nations.
