

# Symplast Partners with POP Recovery Systems to Enhance Patient Recovery and Practice Efficiency for Plastic Surgeons

*Symplast and POP Recovery Systems Join Forces to Elevate Patient Care and Operational Efficiency in Plastic Surgery Practices*

FORT LAUDERDALE, FL, UNITED STATES, November 14, 2024 /

EINPresswire.com/ -- Symplast, a leading practice management and EHR platform designed for plastic and

reconstructive surgery practices, announces an exciting new partnership with [POP Recovery Systems](#). This collaboration will enable Symplast's clients to access POP's proven patient preparation and recovery programs, empowering practices to deliver enhanced patient care while streamlining their front-office operations.

“

This partnership with POP Recovery Systems allows us to deliver on our commitment to provide a seamless, all-encompassing patient experience.”

*Michael Hervis*

POP Recovery Systems specializes in tailored recovery solutions that address the unique needs of patients undergoing surgery, focusing on personalized mental health, nutrition, and post-surgical support. By integrating these services into [Symplast's comprehensive platform](#), Symplast clients can now offer patients a full-circle care experience that supports them through every stage of their journey—from initial consultation to successful recovery. This integration strengthens patient satisfaction

and helps improve front-office efficiency, reducing patient cancellations and optimizing practice operations.

“We are excited to offer POP's already proven system to Symplast's surgeon offices, so they can experience how a robust Recovery System can not only support their patients but also bring efficiencies into their front office and increase the probability of every patient getting their scheduled surgeries,” said Alice Massey, Chief Strategy and Operating Officer at POP Recovery Systems.

Symplast announces POP Recovery Systems Partnership

Michael Hervis, Symplast's Executive Vice President of Revenue, also emphasized the value of this collaboration, stating, "This partnership with POP Recovery Systems allows us to deliver on our commitment to provide a seamless, all-encompassing patient experience. By empowering practices to offer these innovative recovery tools, we're strengthening their ability to drive superior patient outcomes."

This partnership underscores [Symplast's commitment](#) to offering a seamless, end-to-end practice management solution, allowing practices to focus on delivering exceptional patient outcomes. By adding POP Recovery Systems to its platform, Symplast empowers its clients to strengthen patient care, reduce operational bottlenecks, and achieve new levels of efficiency.

### About Symplast

Founded in 2013, Symplast is a leading mobile EHR and practice management platform, developed specifically for plastic surgeons and aesthetic providers. Symplast provides a streamlined and intuitive system that enhances patient engagement and operational efficiency, driving better patient care from lead to loyalty.

### About POP Recovery Systems

POP Recovery Systems is a transformative approach to pre-and post-surgical care for bariatric and plastic surgery patients – combining mental health, nutrition, fitness, and concierge wellness services to accelerate recovery and overall well-being. By offering individualized and holistic treatment plans, POP uses a multi-disciplinary approach to help clients achieve optimal health outcomes that align with their surgical procedures. Co-founder, and CEO, Laura Alexis developed the patent-pending concept after she found herself struggling mentally and emotionally after plastic surgery. After she identified a gap in the industry, POP was born to create a solution and raise the standard and quality of patient care.
