This collaboration brings together WE-AR's expertise in artificial intelligence and extended reality (XR) content creation with Mad About Marketing Consulting's profound understanding of B2B and B2C marketing strategies. The partnership aims to deliver cutting-edge marketing solutions that combine innovative technology with strategic marketing excellence.

"This partnership represents a significant step forward in our mission to transform digital marketing across Asia Pacific," said Jaslyin Qiyu, Managing Director of Mad About Marketing Consulting. By combining our strategic marketing advisory services with WE-AR's technological capabilities, we can offer our clients unprecedented access to innovative marketing solutions that drive real business results."

WE-AR, known for their collaboration with over 500 global brands and their expertise in creating engaging short-form content that has garnered more than 600 million views, will bring their

technical prowess in AI and XR technologies to the partnership. "Our collaboration with Mad About Marketing Consulting opens new avenues for delivering transformative marketing solutions," said Chanhee Kim, CEO of WE-AR. "Together, we will help businesses leverage the latest technology trends while ensuring strategic alignment with their marketing objectives."

The partnership will focus on:

- Development of technology-based content solutions including XR, AI, and Fake-Out-Of-Home 3D Video
- Strategic planning and advisory services for brand development
- Content and social media strategy optimization
- Cross-market expansion opportunities
- Innovation in customer experience and digital transformation

This strategic alliance enables both companies to offer their clients enhanced services while maintaining their respective areas of expertise. Mad About Marketing Consulting will continue to provide high-level strategic advisory services to CMOs and C-Suite executives, while WE-AR will support these initiatives with their advanced technological capabilities in social content creation and digital experiences.
