

congatec and Canonical announce partnership

congatec - a leading provider of embedded and edge computing technology - announced a partnership with Canonical, the publisher of Ubuntu.

SAN DIEGO, CA, UNITED STATES,
November 15, 2024 /

EINPresswire.com/ -- Today, [congatec](#) - a leading provider of embedded and edge computing technology - announced a partnership with [Canonical](#), the publisher of Ubuntu. This partnership enables congatec to offer the best out-of-the-box experience by bundling aReady.COMs with Ubuntu Pro for an optimized platform that provides security, reliability and stability.

congatec and Canonical announce partnership

Designers in all industries require more agility, faster time to market and lower development costs to handle the ever-faster innovation cycles and stay ahead in their markets. congatec

“

The partnership with congatec demonstrates our strong commitment to delivering a secure and optimized platform for embedded and edge applications.”

*Alexander Lehmann, Sales
Director - IoT at Canonical*

answers these needs with aReady.COM, a function-validated complete package, including workload consolidation, OS, and a functional software layer, to which OEMs can seamlessly connect their applications. Thanks to the partnership with Canonical, aReady.COMs will now be Ubuntu Certified and pre-enabled with Ubuntu Pro, ensuring smooth software integration, optimized system stability and long-term security through regular updates, which is a key priority for device OEMs and their end users especially with the Cyber Resilience Act in place.

“Our partnership with Canonical enables us to offer our

customers a completely new level of application readiness through aReady.COMs with a pre-installed and certified Ubuntu instance with Ubuntu Pro enabled by default. This significantly improves time-to-market and provides long-term security and reliability”, explains Andreas

Bergbauer, Manager Solutions Management at congatec.

“The partnership with congatec demonstrates our strong commitment to delivering a secure and optimized platform for embedded and edge applications. Our certified solutions provide OEMs with the reliability and security they need to take full advantage of their innovation power”, explains Alexander Lehmann, Sales Director - IoT at Canonical.

Ubuntu Pro provides up to 12 years of security maintenance and long term support, access to device management tooling, the possibility to leverage real-time Ubuntu for latency-critical use cases, and compliance solutions for multiple standards and regulations, including the Cyber Resilience Act. This ensures customers benefit from a robust and future-proof platform that is continuously updated. Additionally, the combination of powerful congatec modules and Ubuntu Pro’s features offers a cost-effective platform for demanding embedded applications in industries like industrial automation, robotics, infrastructure and medical technology.

The collaboration between Canonical and congatec kicks off at the SPS – Smart Production Solutions 2024, in Nuremberg, Germany, from November 12 to 14 2024.

To find out more about Ubuntu Pro on congatec’s aReady.COM, visit [Canonical’s booth in hall 6, number 446](#).

About Canonical

Canonical, the publisher of Ubuntu Pro, provides open source security, support and services. Our portfolio covers critical systems, from the smallest devices to the largest clouds, from the kernel to containers, from databases to AI. With customers that include top tech brands, emerging startups, governments and home users, Canonical delivers trusted open source for everyone. Learn more at <https://canonical.com/>

About congatec

congatec is a rapidly growing technology company focusing on embedded and edge computing products and services. The high-performance computer modules are used in a wide range of applications and devices in industrial automation, medical technology, robotics, telecommunications and many other verticals. Backed by controlling shareholder DBAG Fund VIII, a German midmarket fund focusing on growing industrial businesses, congatec has the financing and M&A experience to take advantage of these expanding market opportunities. congatec is the global market leader in the computer-on-modules segment with an excellent customer base from start-ups to international blue chip companies. More information is available on our website at www.congatec.com or via LinkedIn, X (Twitter) and YouTube.
