

# CableFinder Introduces Real-Time Serviceability Check for Lumen Technologies

*Streamlining Tool Enhances Connectivity Planning for Businesses and Consumers*

CASTLE ROCK, CO, UNITED STATES, November 18, 2024 /EINPresswire.com/ -- CableFinder is excited to announce the launch of a new feature that enables its users to check serviceability directly for Lumen Technologies solutions.

“

This feature represents a significant enhancement to our platform's core functionality, making it easier than ever for users to determine connectivity options with confidence.”

*Mike Trede*

Through a new application programming interface (API) co-created with Lumen, CableFinder provides real-time, up-to-the-minute data to sellers and partners on Lumen's service availability, empowering businesses and consumers to make well-informed decisions about their connectivity needs. The real-time serviceability check for Lumen is available immediately on the CableFinder platform.

With this innovative addition, CableFinder users can

instantly verify Lumen's serviceability for a particular location with the most accurate and current information. The integration of Lumen's API ensures that data accuracy is maximized, reducing delays and errors that could arise from outdated or manually updated systems. Whether users are seeking high-speed fiber for a corporate campus or a new business internet connection, this serviceability check delivers reliable information for Lumen offerings.

“We're thrilled to launch this capability with Lumen in CableFinder,” said Mike Trede, Managing Partner at CableFinder. “This feature represents a significant enhancement to our platform's core functionality, making it easier than ever for users to determine connectivity options with confidence.”

“This integration brings a new level of efficiency that is a game-changer in connectivity planning,” said Breanna Kuhl, Senior Vice President of Global Partner Solutions at Lumen. “We look to embrace tools and resources that set our partners up for success so they can thrive. Working with Cablefinder, now they can see exactly what network solutions are available, and where.”

CableFinder's real-time Lumen serviceability check is designed to support both individual consumers and larger businesses by making connectivity planning more transparent and accessible. As part of CableFinder's ongoing commitment to enhancing user experience and

operational efficiency, this feature launch is a step forward in providing trusted and up-to-date serviceability data across multiple providers.
