

FINTEL, LLC Launches Beta Version of iCFO Pro: AI-Enhanced Financial Analysis Platform for Consultants and Advisors

FINTEL launches AI-enhanced Industry Metrics in beta, delivering tailored insights on industry trends, benchmarks, and regional specifics via iCFO Pro.

MADISON, WI, UNITED STATES,
November 21, 2024 /

EINPresswire.com/ -- FINTEL, LLC, a leader in industry and business intelligence solutions, announces the beta release of its powerful iCFO Pro suite, now enhanced by AI.

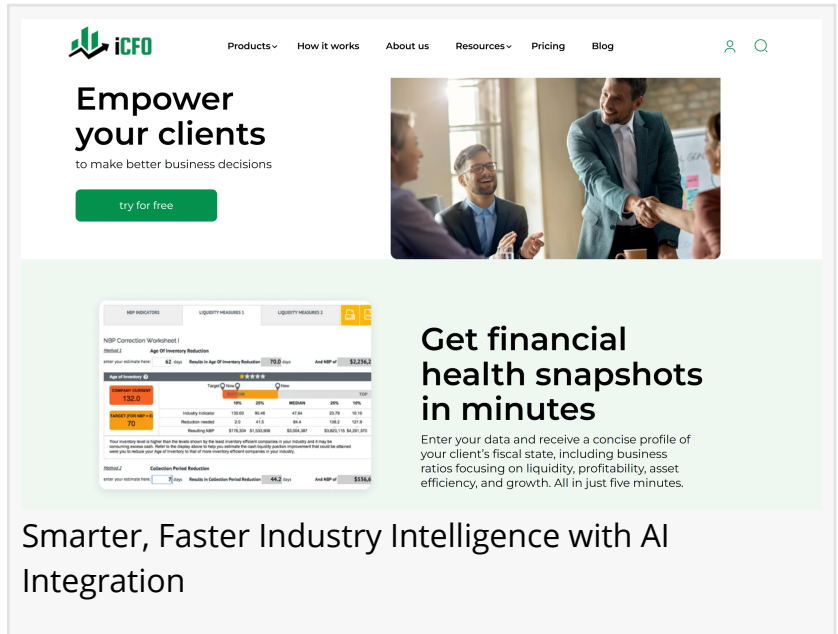

Widely used by SBDC counselors, business consultants, and accountants nationwide, iCFO Pro provides users with precise, industry-specific, and regionally relevant insights to support data-driven decision-making for clients.

“Today’s launch of iCFO Pro beta represents a major advancement for financial consultants,” said Boris Nenide, CEO of FINTEL, LLC. “We’ve invested months in training this AI to ensure it delivers relevant insights tailored to each client’s industry and market. Our commitment is to equip consultants with tools that enable them to offer deep, actionable advice.”

KEY AI-ENHANCED TOOLS AND UPCOMING EXPANSIONS

The initial beta release focuses on two flagship modules with integrated AI:

- **Industry Metrics Reports:** This module provides consultants with key benchmarks and trend analyses, allowing them to gain key insights into their clients’ industries along with regional and size specifics.
- **Business Performance Scorecard:** Designed to offer a comprehensive view of a company’s financial health, this tool covers essential metrics such as liquidity, profitability, and asset

The screenshot shows the iCFO Pro website interface. At the top, there is a navigation bar with links for Products, How it works, About us, Resources, Pricing, and Blog. The main heading reads "Empower your clients to make better business decisions" with a "try for free" button. Below this is a section titled "Get financial health snapshots in minutes" with a sub-headline "Smarter, Faster Industry Intelligence with AI Integration". The central part of the image displays a screenshot of the iCFO Pro dashboard, which includes various financial metrics and charts. The dashboard shows a "NBP Connection Worksheet" with columns for "Age of Inventory Reduction", "Inventory Reduction", "Production Revenue", and "Revenue Growth". It also displays a "Business Performance Scorecard" with a "Total Score" of 48.2 and an "Age of Inventory" of 12.5. The dashboard includes a "try for free" button and a "Get your data" button.

efficiency.

ADDITIONAL MODULES TO RECEIVE AI INTEGRATION SOON

As part of FINTEL's continuous development, iCFO Pro will soon integrate AI into the following financial modules to further enrich the insights available to consultants:

- **Profitability Analysis:** This module assesses operational efficiency and bottom-line performance, helping identify opportunities for improved profitability.
- **Liquidity Assessment:** By examining cash flow and operational liquidity, this tool provides a clear view of a company's ability to manage short-term obligations.
- **Growth Potential Analysis:** Focused on long-term success, this module evaluates growth trajectory and expansion potential.
- **Valuation Tool:** Offering accurate business valuation metrics, this tool aids in understanding client value and positioning for fundraising, mergers, or acquisitions.

INTERACTIVE AI CHAT FOR SPECIFIC INFORMATION RETRIEVAL

One of iCFO Pro's standout features is its AI-driven chat functionality, enabling users to interact directly with the AI to refine queries and retrieve highly specific data. This tool allows consultants to drill down into detailed insights, enhancing their ability to answer nuanced client questions effectively.

Commitment to a Bright Future with AI-Driven Insights

As iCFO Pro's beta progresses, FINTEL, LLC is committed to staying at the forefront of AI-powered tool development, building on its extensive and reliable dataset of financial information from privately held companies. With rigorous training, the AI continues to evolve, ensuring that future enhancements offer even deeper, more actionable insights. This dedication to innovation promises an increasingly valuable resource for consultants, enabling them to offer unparalleled guidance in an ever-evolving business landscape.

"Mark Staniszewski, the Director of Business Development at FINTEL, LLC, has quoted, "I'm excited about the significant strides we're making with AI development within our iCFO Pro platform. Its interactive features deliver highly relevant, industry- and region-specific intelligence, enhancing value in a way that is entirely customizable for each client. This drives long-term value for analysts and business advisors using our system."
