LONDON, GREATER LONDON, UNITED KINGDOM, November 18, 2024 /EINPresswire.com/ -- [The drugs of abuse \(DOA\) testing market has experienced significant growth](#) in recent years. It is projected to increase from \$6.6 billion in 2023 to \$7.25 billion in 2024, at a compound annual growth rate (CAGR) of 9.8%. The growth during the past period can be attributed to factors such as government regulations and workplace policies, pre-employment screening, law enforcement and legal procedures, drug rehabilitation programs, and compliance within the transportation industry.

[How Big Is the Global Drugs of Abuse \(DOA\) Testing Market Expected to Grow](#), and What Is Its Annual Growth Rate?

The drugs of abuse (DOA) testing market is projected to experience significant growth in the coming years. By 2028, it is expected to reach \$10.48 billion, with a compound annual growth rate (CAGR) of 9.6%. This growth is driven by factors such as the rise in sports and athletics testing, growing awareness and education, an increase in drug-related crimes, corporate wellness initiatives, and advancements in testing techniques.

Key trends during this period include the use of portable and handheld testing devices, the adoption of laboratory information management systems (LIMS), a focus on synthetic drug testing, a rising demand for cannabis testing, and the integration of artificial intelligence (AI) in result interpretation.

Drugs of Abuse (DOA) Testing Global Market Report 2024 Market Size, Trends, And Global Forecast 2024-2033

What Is Driving the Growth of the Drugs of Abuse (DOA) Testing Market?

The rising demand for drug abuse treatment is anticipated to drive the growth of the drugs of abuse (DOA) testing market in the coming years. Drug abuse, or substance abuse, involves using a substance in amounts that are detrimental to the user or others. Drug testing helps identify substances that are not typically present in the body. The process begins with a screening test, followed by a secondary test to detect and/or confirm the presence of substances. As the demand for drug abuse treatment increases, it will further propel the market's expansion.
