

# Dr Annise Mabry Announces Education Nonfiction book 'Educational Disobedience: A Mom Who Became A Movement'

DALLAS, TX, UNITED STATES, November 18, 2024 /EINPresswire.com/ --

Educational Disobedience is a compelling and transformative guide for parents, educators, and advocates committed to reimagining traditional educational systems. Drawing from her extensive experience as an educator, homeschool advocate, and law enforcement professional, Dr. Mabry challenges the conventional paradigms of schooling that often fail underserved and marginalized students. With practical advice and deeply personal insights, she explores how parents can use homeschooling to reclaim their children's [education](#).

Dr. Mabry argues that educational disobedience is not about defiance but about empowerment—empowering parents to resist systems that perpetuate inequity and disempower children, particularly those from at-risk communities. She provides a roadmap for creating individualized, flexible learning paths that focus on student well-being, literacy, and personal growth. The book also highlights how cooperative educational models, like her own Tiers Free Homeschool Cooperative, can serve as community-driven alternatives to traditional schooling.

Educational Disobedience is not only a call to action but a beacon of hope for parents seeking to revolutionize their children's learning experience. It's a must-read for those ready to challenge the status quo and advocate for educational justice.
