# pdfRest Enhances Add to PDF API Tool with Text Insertion Support

With new PDF text insertion, pdfRest API Toolkit transforms document customization, supporting variable data printing, page numbering, and more.

CHICAGO, IL, UNITED STATES, November 18, 2024 / EINPresswire.com/ -- pdfRest, a leader in innovative PDF processing solutions, is excited to announce a significant enhancement to its Add to PDF API Tool. Previously known for its ability to seamlessly integrate images and attachments into PDFs, the tool now supports the addition of text blocks, offering developers unprecedented flexibility and precision in PDF customization.

Enhancing PDF Customization with Text Insertion

The newly added text insertion feature allows developers to automate and streamline workflows by adding variable data to template PDFs. This capability is ideal for creating custom PDFs tailored for each customer, user, or recipient. With options to customize font, size, color, rotation, opacity, position, page, and line width, the tool supports both LTR and RTL languages, making it perfect for multilingual applications. Additionally, the tool simplifies the process of adding page numbers to PDFs, ensuring documents are well-organized and professionally presented.

Key Benefits of the Add to PDF API Tool:

The Add to PDF API Tool offers automated content enhancement, eliminating the need for manual editing in software like Acrobat or Illustrator by automating the addition of text, images, and attachments. It provides precise positioning for both images and text, maintaining visual

integrity and high-quality color accuracy. This flexibility allows developers to create professional and customized PDFs efficiently.

Example Text Insertion Use Cases:

* Variable Data Printing: Dynamically insert personalized text into PDFs, such as customer names or addresses, ensuring each document is uniquely tailored to its recipient.

* Page Numbering: Easily add page numbers to PDFs, enhancing document organization and readability.

* Invoice and Receipt Customization: Customize invoices and receipts with payment terms, customer notes, or promotional messages for added context and marketing value.

pdfRest offers the best solution for adding text, images, or attachments to PDF documents, thanks to its support for precise positioning, robust variable data printing, and flexible file attachments. Whether you're preparing marketing materials, technical documents, or personalized content, the Add to PDF API Tool provides the flexibility and precision needed to achieve professional results.

With this enhancement, pdfRest continues to empower developers to create dynamic, customized PDFs with ease, enhancing document workflows and ensuring compliance with industry standards.

About pdfRest

pdfRest is a leading provider of PDF processing solutions, offering a comprehensive suite of tools designed to streamline document workflows and enhance productivity. With a focus on innovation and user-friendly design, pdfRest is committed to delivering high-quality solutions that meet the evolving needs of businesses worldwide.
