

Six Degrees Consulting Partners with Check Point Software Technologies to Accelerate Harmony SASE Adoption

CHICAGO, IL, UNITED STATES, November 20, 2024 /EINPresswire.com/ -- Six Degrees Consulting (SDC), a leading technology solutions provider, announced an expansion of its [strategic partnership with Check Point Software Technologies](#), a global leader in cybersecurity solutions. This addition to the alliance will focus on guiding customers through the intricacies of setting up network security, in particular Check Point's Harmony SASE (Secure Access Service Edge) product.

We are thrilled to partner with Check Point Software Technologies on this exciting initiative. Harmony SASE is a groundbreaking solution that offers unparalleled security and performance."

Molly Rouch, President and Co-Founder, Six Degrees Consulting

Check Point's Harmony SASE brings workspace security and network optimization into a single, cloud-based platform built for the modern enterprise. Harmony SASE provides a comprehensive security platform that protects users and data, regardless of their location or device. With its cloud-native architecture and advanced threat prevention capabilities, it is ideal for businesses of all sizes.

Six Degrees Consulting was selected by Check Point based

on its success over the past two years with [Check Point's Harmony Email & Collaboration \(HEC\) solutions](#). In early 2020, SDC realized customers needed help providing access for workforces that had become mostly remote. SDC built a team focused on addressing remote security needs. This early focus has led to a team that is expert at identifying problems and helping customers understand the issues and solutions.

Six Degrees Consulting's ability to deliver exceptional customer service and support in addition to its deep understanding of Check Point's technology make them an ideal partner. In 2023, the focused HEC team brought on more Check Point customers than any previous year in SDC's history. It also brought the most net new labels to the US for Check Point. This team will now expand to include the Harmony SASE offering with plans for similar success.

"We are thrilled to partner with Check Point Software Technologies on this exciting initiative," said Molly Rouch, President and Co-Founder at Six Degrees Consulting. "Harmony SASE is a groundbreaking solution that offers unparalleled security and performance, and it can be

deployed in under an hour. Our team of technical sales specialists is equipped to provide potential customers with compelling demonstrations and proof of concepts, helping them understand the value that Harmony SASE can bring to their organization. We expect to see rapid Harmony SASE adoption.”

About Six Degrees Consulting
